Vango Balletto Air 330 Shield & Carpet, Size 330cm width, 2023

£850

Description

The Vango Balletto Air 330 Elements Shield caravan awning features Vango's revolutionary AirBeam® Single Point Inflation and Multi-Point Deflation in a popular and flexible size.

This awning features Vango's featherlight Elements Shield, a durable fabric ensuring a compact pack size for easy transportation.

Please contact us to ask about new awning availability and pricing of our Package deal consisting of awning and matching carpet.

Features Include

Elements Shield fabric - Strong and durable, this 150D fabric is lightweight and highly waterproof. With ColourLok™ technology to aid colour retention, it performs in all weather conditions

Touring Awning – This awning is designed for touring use; it is not designed for static or long-term seasonal pitching as extensive exposure to UV light will cause accelerated fabric degradation

Split Access Door - The 60/40 split of the side door allows you to roll a section away for quick entry. This door also features a secondary mesh door for added ventilation

Easy Access Doors - A flat entry access door creates easy access for wheelchairs, prams and people with reduced mobility

Zippered Privacy Curtains - Simple and quick to use, zip curtains allow varying levels of opening or simply roll down and secure away

Bracer Beams Included - Small AirBeams® secured in between main AirBeam® structure for enhanced stability

Oversized Bag - The wide opening makes it simpler to pack away your awning. This design also includes robust compression straps allowing you to reduce the overall pack size

PVC Mud Strip - Positioned around base of awning for easy cleaning

Diamond Clear Windows - Maximise light and visibility to provide a bright and airy environment

AirBeam® Pump Included - Double action pump that will rapidly inflate your AirBeam® awning which comes complete with a pressure dial and handy carry bag

Fully Wind & Rain Tested - Tested with wind and heavy rainfall to the European standard EN5912

Steel Rock Pegs Included - Pegs are strong, durable and can be used on more challenging terrain. Supplied with a handy carry bag

Adjustable Pegging Points - Allows awning to be pitched perfectly on uneven surfaces

SkyTrack® II - A flexible hanging system which allows you to easily attach lighting, storage or SkyLiners. The SkyTrack system allows you to customise your awning to suit your needs (Sky Hooks included)

Supplied with Pack of 10 Sky Hooks - Simply slide on to the SkyTrack® System to hang storage or lights

Reflective Webbing Straps - Additional stability for your awning in strong winds. Simply clip onto the pre-attached buckles and peg into the ground to secure. The reflective straps pick up torchlight so the pegging points are easily spotted in low light conditions

AirBeam® S.I Pro - Single Point Inflation – With 10 years' experience of AirBeam® development and testing, this awning offers single point inflation, a new and revolutionary feature for quick and easy inflation through the AirSpeed S.I Pro valve. Vango's unique system ensures pitch time is minimised while the multiple AirSpeed™ valves help with simple deflation. The added feature of self-isolated AirBeams® ensures that in the unlikely event of a puncture, the structure remains strong and functional

Vango Draught Seal System - Vango's Patent Pending Draught Seal System creates a tight seal between the awning and your caravan, ensuring no draughts come into your awning. This eliminates the need for any poles

Draught Skirt & Two Wheel Arch Covers Included - Reduce draughts from coming in under the caravan into the awning
